

Tahapan Instalasi GitHub

1. Buka URL : <https://github.com/username/pem-web2021>

2. Lakukan sign up apabila belum mempunyai account

The screenshot shows the GitHub sign-up page in a web browser. The browser's address bar displays the URL: `github.com/signup?ref_cta=Sign+up&ref_loc=header+logged+out&ref_page=%2F&source=header-home`. The GitHub logo is in the top left, and a link to "Sign in" is in the top right. The main content area is a dark blue box with the following text and form elements:

Welcome to GitHub!
Let's begin the adventure.

Enter your email
✓ [input field]

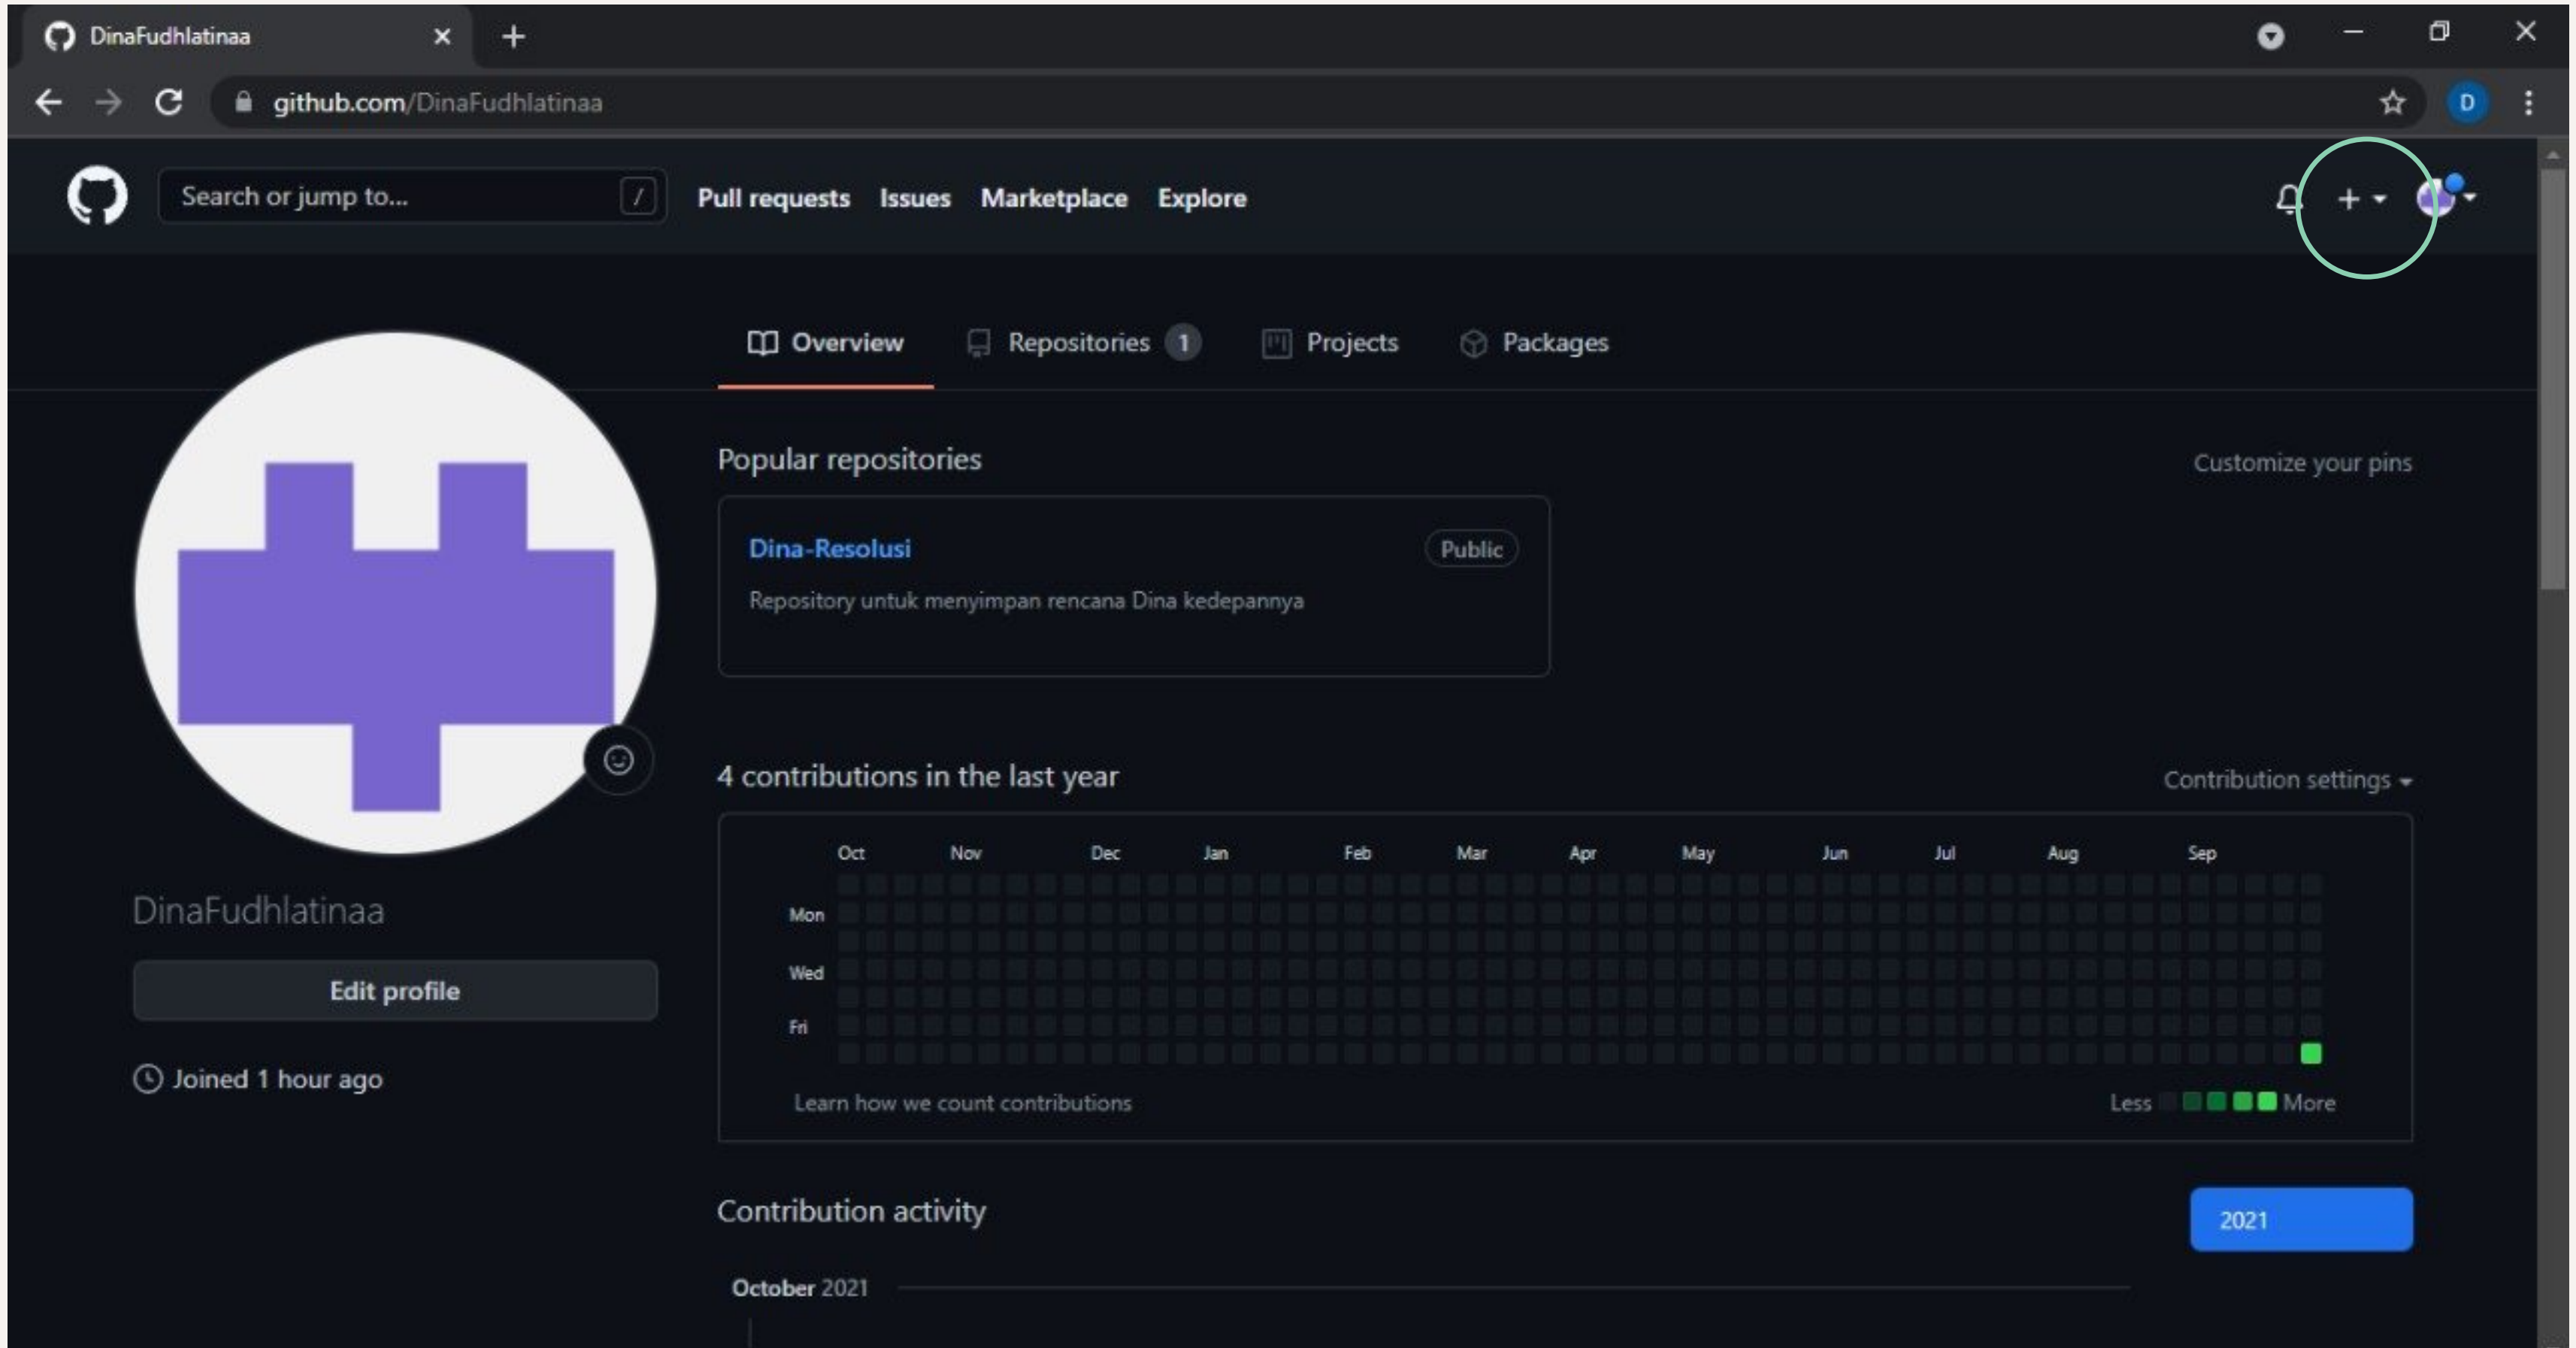

Create a password
✓ [input field]

Enter a username
✓ DinaFudhlatinaa

Would you like to receive product updates and announcements via email?
Type "y" for yes or "n" for no
→ y

Continue

4. Lihat profile lalu klik tanda (+) untuk membuat new repository

The screenshot shows the GitHub profile page for user DinaFudhlatinaa. The browser address bar displays `github.com/DinaFudhlatinaa`. The navigation bar at the top includes links for Pull requests, Issues, Marketplace, and Explore. The profile section on the left features a circular avatar with a purple plus sign, the username DinaFudhlatinaa, an Edit profile button, and a note indicating the user joined 1 hour ago. The main content area is divided into sections: Popular repositories, which lists a repository named 'Dina-Resolusi' (Public) described as 'Repository untuk menyimpan rencana Dina kedepannya'; 4 contributions in the last year, shown as a calendar grid with a legend for 'Less' and 'More' contributions; and Contribution activity, which includes a dropdown for the year 2021 and a timeline for October 2021. A green circle highlights the '+' button in the top right navigation bar, which is used to create a new repository.

5. Setelah mengklik tanda (+), selanjutnya akan muncul halaman seperti ini untuk memberi nama repository yang akan dibuat

Create a New Repository

github.com/new

Owner ^{*} Repository name ^{*}

DinaFudhlatinaa / Dina Resolusi ✓

Great repository names are short. Your new repository will be created as Dina-Resolusi. [turdy-robot?](#)

Description (optional)

Repository untuk menyimpan rencana Dina kedepannya

☒ **Public**
Anyone on the internet can see this repository. You choose who can commit.

☐ **Private**
You choose who can see and commit to this repository.

Initialize this repository with:
Skip this step if you're importing an existing repository.

☒ **Add a README file**
This is where you can write a long description for your project. [Learn more.](#)

☐ **Add .gitignore**
Choose which files not to track from a list of templates. [Learn more.](#)

☐ **Choose a license**
A license tells others what they can and can't do with your code. [Learn more.](#)

This will set `main` as the default branch. Change the default name in your [settings](#).

Create repository

* contoh file repositories dengan format file.txt

The screenshot shows a GitHub commit page for the repository 'DinaFudhlatinaa / Dina-Resolusi'. The commit is titled 'Membuat file resolusi.txt' and was made by 'DinaFudhlatinaa' on the 'main' branch. The commit is verified and shows 1 parent (f0933e0) and commit bf560db916f1da8ff639f345c94c110d20f84752. The diff view shows 1 changed file with 5 additions and 0 deletions. The file 'Dina-Resolusi.txt' contains the following content:

```
@@ -0,0 +1,5 @@
